State of Connecticut Directory of Certified Forest Practitioners September 2019 Edition

The status and information concerning each certified forest practitioner listed in this directory is subject to change. To obtain the latest status and information for each practitioner, visit our website at <http://www.ct.gov/deep/forestry> (860) 424-3630.

Printed on recycled paper

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. Please contact us at (860) 418-5910 or deep.accommodations@ct.gov if you: have a disability and need a communication aid or service; have limited proficiency in English and may need information in another language; or if you wish to file an ADA or Title VI discrimination complaint.

Forest Practices Act Program

Approximately 500 Foresters and Loggers are currently certified to conduct commercial forest practices within the State of Connecticut. Individuals who wish to seek certification should contact the program administrative office as listed below to obtain an application.

CT - DEEP Forestry
79 Elm Street, 6th floor
Hartford, CT 06106
Phone: (860) 424-3630
Fax: (860) 424-4070
Email: DEEP.forestry@ct.gov

Complaints concerning the conduct of a certified forest practitioner should be brought to the attention of Forest Practices Act Program field staff.

For complaints on harvest operations contact:

Douglas Emmerthal
CT - DEEP Forestry
79 Elm Street
Hartford, CT 06106
Tel: (860) 424-3635"
Email: douglas.emmerthal@ct.gov

Understanding the Connecticut Forest Practitioner Certification Program

In 1991, the Connecticut legislature overwhelmingly approved Connecticut's first Forest Practices legislation. The legislation is designed to protect and conserve Connecticut's forest resources by encouraging its wise and careful use. Forest practices such as commercial timber harvesting for logs or firewood are key examples of operations that are covered by the law.

An important component of the Forest Practices Act is the requirement of forest practitioners to be certified by the Department of Energy & Environmental Protection prior to conducting any commercial forest practices in Connecticut. Forest Practitioners (people who design, supervise or participate in forest practices such as timber harvesting for logs or firewood) must now be certified to conduct commercial forest practices within the State of Connecticut.

WHO NEEDS TO BE CERTIFIED?

The law requires that anyone who advertises, solicits, contracts or engages in commercial forest practices within Connecticut at any time must have the appropriate certificate issued in accordance with the law.

Essentially, this means that if an operator advertises, solicits, contracts or engages in an activity which is undertaken in connection with the harvest of timber from a tract of forest land in excess of 50 cords, 150 tons or 25,000 board feet in any twelve month period, and the operator receives remuneration (income or goods and services in some form, including timber) for that work, certification is necessary.

ARE THERE ANY EXCEPTIONS?

Limited provisions exist which allow a person to conduct a harvest operation without certification. First, if a person only participates in the harvesting operation, such as operating a skidder or chain saw, they may do so without certification as long as a certified forest practitioner is present at all times on the job site to provide direct *on-site* supervision. A certified forest practitioner may provide such direct on-site supervision for up to two non-certified persons working at the same time.

The second provision is for harvests undertaken pursuant to the conversion of forest land to other uses. An individual is not required to possess a forest practitioner certification to participate in such conversions *provided* that the conversion has been *approved* by the planning commission, zoning commission, or combined planning and zoning commission and, if the forest land includes any wetlands or if the municipality within which the land is located regulates forest practices under section 23-54k, the inland wetlands agency of the municipality.

IS CERTIFICATION REQUIRED FOR ANYONE WHO CUTS A TREE?

A key point to remember is that forest practitioner certification is required only for activities that occur *on* forest land. Forest land is at least one contiguous acre upon which there is no structure, maintained landscape area, access way or other improvement and which is occupied by a minimum number of trees as described in the law. Land that is occupied by Christmas trees, orchard or nursery stock is not forest land. Therefore, activities such as cutting or pruning trees in one's yard or in a maintained park, powerline pruning or cutting a tree along a driveway would generally not require a certified forest practitioner.

WHAT DIFFERENT TYPES OF CERTIFIED FOREST PRACTITIONERS ARE THERE?

There are three levels of certification offered. Each level has a specific description of what activities they are permitted to do under the law. Below is a brief list of activities which they are permitted to conduct. A glossary is provided at the end of this section to further describe the underlined terms.

Forester:

- May plan or design forest practices, including *forest management plans* and *silvicultural plans*.
- May represent the landowner as agent in the sale of *commercial forest products*.
- May execute written or oral contracts or agreements for the purchase of commercial forest products from woodland owners.
- May supervise commercial forest products harvesting operation.
- May participate in the actual commercial forest product harvest operation.

Supervising Forest Products Harvester:

- May execute written or oral contracts or agreements for the purchase of *commercial forest products* from woodland owners.
- May supervise and participate in a commercial forest product harvesting operation.
- May mark trees as a means of clearly designating which are to be cut and/or which are to be left uncut.
- May plan and design a *harvest plan*.

Important note: Supervising Forest Products Harvesters may not make recommendations, either written or oral, concerning silvicultural principals and techniques; and they may not represent the landowner as agent in the sale of commercial forest products.

Forest Products Harvester:

- May participate in the actual *commercial forest products* harvest operations.
- May provide direct on-site supervision to two uncertified people participating in the actual commercial forest products harvest operation.

Important note: Forest Products Harvesters may not solicit the purchase of commercial forest products or execute contracts to purchase commercial forest products; may not make recommendations, either written or oral, concerning silvicultural principals and technique; may not represent the landowner as agent in the sale of commercial forest products; may not act in the buyers behalf in the supervision of a commercial forest products harvest operation; and may not mark timber for harvest.

WHAT ABOUT FEDERAL FORESTRY AID PROGRAMS?

Generally speaking, a certified forester is required to assist the woodland owner when working with programs involving federally funded commercial forest practices.

HOW CAN I BE SURE THE PERSON I AM TALKING TO IS CERTIFIED?

Each certified forest practitioner has been issued a wall certificate as well as a wallet certificate. The wallet certificate contains the certified individual's name, the level of certification, a unique certification identity number, a date the certificate expires, and a photo of the certified person.

HOW DOES A FOREST PRACTITIONER RECEIVE CERTIFICATION?

The Division of Forestry administers the certification program. A person desiring certification should contact DEEP at (860) 424 -3630 for information and directions on submitting an application. Most applicants are required to pass an examination in order to receive certification. Only the Forest Products Harvester level has a very limited grandfather option available.

Glossary of Terms:

Forest Management Plan:

A broad-based master plan intended to guide management efforts for a tract of forest land over a 5 or 10 year period. This plan may deal not only with management of forest vegetation, but also with amenities such as trails, access roads, property boundaries, fish habitat, and aesthetic values.

Silvicultural Plan:

A plan specifically designed to guide efforts towards influencing the growth and composition of forest vegetation. This is more limited in scope than a comprehensive forest management plan and deals strictly with the establishment, culture, and regeneration of forest vegetation to achieve specific goals or objectives.

Harvest Plan:

A focused plan which deals strictly with the operational aspects of conducting the harvest of forest products. A Harvest Plan would address, for example, subjects such as: the design and creation of access routes; felling techniques; treatment of slash; erosion and sedimentation control; hours of work; and protection of wetlands or water courses.

Commercial Forest Products:

Primarily trees as logs or for firewood but may include various other product uses.

Important Facts to Remember When Selecting A Forest Practitioner to Manage Forest lands

- Request a list of references and be sure to check them. Actually visit the site and look at the referenced job if at all possible.
- Be sure the individual is properly certified to perform the work to be accomplished.
- Understand what fees will be charged, or if the service is to be provided for free, what obligations are required of the forest landowner. Forest practitioners offer a variety of services with wide ranging fee schedules. Many forest land owners contact more than one forest practitioner to compare services and fees.
- Understand exactly what services are to be provided and at what cost. A properly written contract will allow both the forest land owner and the forest practitioner to understand who is responsible for what, when and will set standards of performance.
- Make sure the forest practitioner clearly understands the owner's goals for the forest land.

The Connecticut Division of Forestry

Cooperative Forest Management Program

Most people consider Connecticut to be an urban state, and with good reason: we are America's fifth most densely populated state. Because of this, many people are surprised to learn that Connecticut is still nearly 60% forested. There are few regions in the world where so many people live among so much forest.

Even more surprising is that 88% of Connecticut's forestland belongs not to the state or federal governments, but to approximately 100,000 other owners: individuals, families, land trusts, municipalities, and industries. The Connecticut Division of Forestry is available to provide professional and technical assistance to any of these forest owners.

CAN YOU SPARE ½ DAY FOR YOUR FOREST?

The Division's Service Foresters are experienced, knowledgeable professionals who can be called upon to visit your forest, gather information and start you on the path to a rewarding long-term forest stewardship program. Do you want to know what kinds of wildlife live in your forest, and where? Do you want to cut a few cords of firewood and improve wildlife habitat at the same time? Do you want to earn some income from timber management, but be certain it's done in an environmentally sound manner? Your Service Forester can help you start to turn these kinds of goals into reality.

Service Foresters can spend up to one half of a day in the field with a given landowner at no charge. At least a couple hours of that time should be spent with you, learning where the property boundaries are and discussing your goals, interests and concerns. When finished, the Service Forester can provide you with:

- * *A Forest Cover Map*: a map delineating the different types of tree and shrub communities that exist on your forest.
- * *Stewardship Options*: a brief but invaluable listing of possible activities you could undertake that would help you reach your goals and enjoy your forest more. Some will be specific to particular forest cover types, and some may involve your whole forest.
- * *Recommended Action Steps*: This "where to go from here" information will include concrete steps you can take to follow up on any or all of your stewardship options. It may include financial assistance opportunities like the Connecticut Forest Stewardship Program, sources of additional information and education on specific topics, or other resource professionals who can help.

Taking advantage of the Division's Cooperative Forest Management Program requires that you invest about ½ day in your forest. But as you can see, there is probably no better investment a forest owner could make.

MAKING AN APPOINTMENT

To make an appointment, simply call or write the Division of Forestry at 79 Elm Street, Hartford, CT, 06106, (860) 424-3630 for the name and telephone number of the appropriate Service Forester. The Forester will schedule a date with you, and suggest steps you can take prior to the appointment that will make your time together as productive as possible.

Clean air, clean water, wildlife and forest products are things that all of society needs, and yet they are dependent on thousands of individual forests like yours. The Division of Forestry's Cooperative Forest Management Program can get you started on a bright new future: a future where you and your heirs get the maximum possible enjoyment from your forest, and you can enjoy the satisfaction of being a responsible and pro-active conservationist.

THE CONNECTICUT DIVISION OF FORESTRY COOPERATIVE FOREST MANAGEMENT PROGRAM

Advice and technical assistance in:

- * Forest stewardship planning
- * Christmas tree management
- * Forest recreation and aesthetic enhancement
- * Forest products management
- * Forest health, insect and disease problems
- * Stream and wetland protection
- * Wildlife habitat management

Using the Connecticut Certified Forest Practitioner Directory

This directory is a listing of forest practitioners certified by the State of Connecticut. Since the period of certification is for four years, it is possible the address and telephone information maybe out-of-date if the certified forest practitioner has failed to advise the Department of Energy & Environmental Protection of any such changes.

This directory is printed with the names of those individual's certified as forest practitioners pursuant to CGS 23-65h on or before September 1 2019. The names of those Forest Practitioners achieving certification after September 14 2019 will appear in the next edition of the directory. A revised edition will be posted every few months on the DEEP web site. Printed copies of the directory may be requested by calling the Division of Forestry at 860-424-3630. When any new edition of the directory is produced, all previous editions become invalid and should be discarded. Readers are cautioned that the certification status of the practitioners listed in the directory is subject to change. The certification of any forest practitioner should be confirmed by inspecting the certification photo identification card given to each forest practitioner. In addition, the certification status of a practitioner may be confirmed by calling the Division of Forestry at the number listed above. Photo identification cards are wallet sized and contain the certified forest practitioners name, level, number, the expiration date of the certification, and a photo of the individual.

The directory is divided into the three levels of certification: Forester, Supervising Forest Products Harvester and Forest Products Harvester. An explanation of these three levels can be found in this directory. Practitioners are listed in alphabetical order within each level. Each listing contains the practitioner's mailing address, business telephone number, certification number, and expiration date. A separate listing follows which shows those Foresters, Supervising Forest Products Harvesters and Forest Products Harvesters who possess a governmental certificate or work for the Department of Energy & Environmental Protection. A Governmental certificate is held by a state or municipal employee who is engaged in forest practices solely as a part of their state or municipal employment.

Only Foresters with "**490**" appended to their listing are permitted to assist landowners seeking classification of their land as "Forest Land" as per CT General Statutes section 12-107d (aka Public Act 490).

FORESTER NOTE: (490) means that this person is qualified to provide 490 services. See instructions for using the directory for more information

GOVERNMENT CERTIFICATION/ DEEP EMPLOYEES

9/19/2019

The following individuals have either a government certification and/or are employees of the CT. Department of Energy and Environmental Protection. These individuals are available to the public only as a function of their employment. They cannot provide private contract forest land services to landowners. NOTE: DEEP means the person works for the Department of Energy and Environmental Protection.
