

## **No Exposure Certifications for the Discharge of Stormwater Associated with Industrial Activity, effective October 1, 2011**

The following table displays No Exposure Certifications submitted to qualify for certain permit exemptions. The table is sorted alphabetically by Site Town first, and then by Site Name.

### **Status is defined as follows:**

Received – Certification received by DEEP

Sufficiency– DEEP reviewing certification for completeness

Insufficiency – Registrant must provide additional information

Technical Review – DEEP conducting technical review of certification

Final Decision – Certification deemed sufficient

Issued – Certification in effect, as of Authorization Date

Rejected – Certification did not satisfy No Exposure requirements

Withdrawn – Certification withdrawn by applicant

Disapproved – Certification not eligible for No Exposure Certification / may require general or individual permit authorization

### **Document permit exemption:**

*This table will serve to document coverage under the No Exposure Certification (contingent upon maintaining a condition of No Exposure), upon issuance, for the entire term of the permit.*

### **Request a Certification:**

If you are requesting to review a certification, please send your request or comments to the e-mail address below and indicate the Application Number and Site Name in your correspondence.

Note the certification is available for review only.

Certification column notes are defined as:

Open for Request: Within 15 days of the initial certification posting date, members of the public can request a copy of the certification.

Review Period Closed: The certification has been posted for more than 15 days and is no longer available for review.

### **Give us your feedback:**

If you have comments on this posting page, send them to us via the email address below.
